Dear Concern,

I am Skilled Software Developer and recent graduate in **Computer Programming & Analysis Program – Advance Diploma from Seneca College** with 3.5 GPA. Through multiple technical projects mentioned in my portfolio helped me to gain experience in **developing web applications** and **coding** for varied programs. My experience has enriched me with **technical skills and analytical thinking** necessary to master new technologies and to assist your company with **efficient technical solutions** across varied software platforms.

Throughout my academic career, I was consistently praised as **problem solver** by my Professors and Peers. While working on academic and self-projects highlighted in my Portfolio, I developed critical thinking, leadership and effective collaborating skills that I am looking forward to leverage with your Company. I have **strong knowledge of programming languages and frameworks like:**

- Python, Django, Flask, Matplotlib, NumPy, Pandas, APIs, Rest Framework
- Full-Stack Web Developer – Django, Node.js, JavaScript, JQuery, React, Angular
- Robotics, C language, C++
- Mobile Applications – Android App, Android Studio, Java
- Database – PL/SQL, SQL Developer, SQLite Database, Oracle, Mongo Db
- Hosting tool – GitHub, Git, Heroku, Versel, Ms Office

Currently looking for **entry level** opportunity in **Software, Web application, SQL development or Software Testing**. It would be great opportunity for me to expand my learning and professional experience by working with your company. Kindly find my online Portfolio and I would welcome the opportunity to discuss my resume in greater detail. I can be reached at (416)918-1884 or mastersagh@hotmail.com.

Thank you for taking the time to review my resume. I look forward to hearing back from you.

Sincerely,
Sammar Abbas
